2. No building or improvements of any character shall be erected or placed, or the erection of begun, or changes made in the design thereof after original construction, on any lot until the construction plans and specifications and a plan showing the location of the structure or improvements have been submitted to and approved by First or its assignee hereinafter provided for as to compliance with these restrictions and as to quality of materials, harmony of external design with existing and proposed structures, and as to location with respect to topography and finish grade elevation. In the event First fails to approve or disapprove within thirty (30) days after receipt of the required documents, approval will not be required and the related covenants set out herein shall be deemed to have been fully satisfied.

5. Any owner of one or more adjoining lots (or portions thereof) may consolidate such lots or portions into one building site, with the privilege of placing or constructing improvements on such resulting site, in which case setback lines shall be measured from the resulting side property lines rather than from the lot lines as indicated on the recorded plat.
